Competitor Ad Research

Use Google Ads Transparency Center data to research what competitors are running.

The Ads Search tool lets you research competitor advertisements from the Google Ads Transparency Center. See what ads your competitors are running, what messaging they use, and find inspiration for your own campaigns.

How to Research Competitor Ads

- 1

Navigate to Ads Search from the sidebar
- 2

Enter a competitor domain or brand name
- 3

Submit your search - the system queues an asynchronous scraping job
- 4

Results are processed and displayed once the scrape completes
- 5

Browse competitor ad creatives, headlines, and descriptions
- 6

Use insights to improve your own ad copy and strategy

Pro Tip

Search for your top 3-5 competitors to understand the competitive landscape. Look for messaging patterns, unique selling points, and offers that appear frequently.
